

# THE PET RELEAF DIFFERENCE

## OUR COMPANY

Since we began in the early 2000's, we have helped over 2.5 million pets on their health journey. Our products support a healthy immune system, situational stress, hip and joint discomfort and more. By providing the highest quality products, we are proud that we have become the most-trusted pet CBD product supplier in the industry – and to be truly making a difference in pet's lives.

## OUR HEMP

The hemp used in all of our products is sourced from U.S. farms using sustainable and regenerative practices and is grown with no herbicides or pesticides. With regenerative agriculture, producers are not just sustaining the current land resource so that it can continue to be used in the future, they are actually improving what is there, leaving it better for the next generation.

## OUR PRODUCT QUALITY

We are proud to have achieved two of the highest industry certifications, US Hemp Authority and the National Animal Supplement Quality Seal. The NASC Quality Seal ensures that our CBD pet products are properly labeled, have accurate ingredients listed, and meet all of the supplement requirements. Our USHA Certification ensures safe and trustworthy products by guaranteeing traceability in our manufacturing process from seed to sale, from plant to pet.

## OUR PRODUCT SAFETY

Our products are consistently submitted to accredited 3rd party testing facilities where laboratories test for guaranteed potency, CBD & THC levels, and to prove no toxic chemicals were used in our extraction process.

# Thinking about CBD?

## ASK THESE QUESTIONS FIRST AND ASK FOR PROOF

 <p><b>We source our hemp from U.S. farms that use sustainable and regenerative farming practices and never use herbicides or pesticides.</b></p>	<p>Where is the hemp grown?</p>	<p><b>Other companies</b></p> <p>Private labeled and unverifiable sources.</p>
<p><b>Our Hemp Oils, Capsules and many of our Edibites are 100% Certified Organic. We also have organic certifications on many of the ingredients used in all of our products.</b></p>	<p>What about organic claims?</p>	<p>Commonly claiming organic without certifications.</p>
<p><b>We never use CBD isolate, we only use full spectrum to ensure the highest rates of success for your pets!</b></p>	<p>Are they using CBD isolate?</p>	<p>Commonly using CBD isolate = less effective and chemically processed.</p>
<p><b>Consistent 3rd party testing with CBD amounts clearly stated. No pesticides used.</b></p>	<p>How much CBD is in the products?</p>	<p>Unknown amounts of CBD, with little to no 3rd party testing.</p>

HEMP HEALTH

## CHANGING WHAT HEALTHY MEANS FOR PETS™

## WHY DOES MY PET NEED CBD?

Cannabidiol (CBD) is a beneficial cannabinoid (natural compound) that is found in the hemp plant.

When CBD, accompanied by over 100 other beneficial cannabinoids found in hemp, enters a mammal's body it turns on a system called the Endocannabinoid System (ECS).

The ECS has receptors throughout a mammal's body. From your brain to your immune system, you and your pet's body are covered in these receptors.

When the ECS is turned on, these receptors help the body begin a 2-way communication, which allows the body to self-heal. Science has proven that full spectrum hemp oil may help support a normal inflammatory response as well as a healthy immune system.

In fact, consuming full spectrum hemp oil with CBD on a regular basis may help mammals reach optimal levels of health.

Whether your pet is in perfect health or struggling with a specific health need, Pet Releaf products are an all-natural and holistic option to help our furry loved ones feel happy and healthy.

Our Edibites are a perfect daily supplement for generally healthy dogs! Each veterinarian formulated Edibite is made with full spectrum hemp extract and incorporates all-natural ingredients to support everyday wellness, optimal body function, and promote calming effects.
